Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170  
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Between all of the stuff that's gone on since 9-11-01, the cost of living and wages offered by employers have gotten to where they do not coincide with one another to begin with for those folks that are having a rough enough time just keeping their heads above water as it is. To make things more expensive for TracFone users, you are making it more difficult for us to reach "The American Dream". Just put yourselves in our shoes for a day, live the way we have to live, barely getting by and coming across a great opportunity to be able to make things better for yourself when you don't have the extra funds to be able to reach your dreams, and then see what happens when the government officials go and slam you with yet, another raise in cost of living without compensating our wages to match it. Then, see how you would feel about it. So, please don't add anymore charges to something that is already great for everyone. It even helps you guys out, because then if you offer a bi!

t of humanity, fewer people will offer problems. Thank you.....

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Mark A. Kruckeberg
